5) How to Edit PSD File

LAYER STRUCTURE

The PSD files are Easy to custom, Well Layered and properly named. The screen in the right side is the Layer Structure:

This template using resolution 1920px width and height adjusting

Please note: Layers structure maybe different each other depend on how the design look.

HOW TO INSERT IMAGE INTO THE CLIPPING MASK?

You can easily drop your image on top of Layer that says "Placeholder". For example, I drop Image at the top of Image holder (see the picture).

Then right-click on the Image layer and choose "Create Clipping Mask"
